

December 2018 Events

Effective School Governance: Wednesday 19 December 2018 12:00 – 13:00, University of Leeds

Led by the Leeds Governor Support Service, this free lunchtime session will explore what it takes to become an effective school governor and run an effective school board. Mince pie and refreshments will be included.

Arts and Health and Wellbeing Network Launch Thursday 24 January 2019, 12:00 – 14:00 GMT

The Cultural Institute is developing a city-wide Arts and Health and Wellbeing Network, in partnership with Leeds City Council and other organisations across Leeds. The network aims to connect clinicians and public health bodies with a broad range of organisations and arts professionals who are engaging in arts and health activities in Leeds. It will facilitate discussion between different sectors and enable its members to form collaborative groups in areas of shared interest.

Findings from the network will contribute to a wider programme of work, including a national conference hosted by the Cultural Institute in June 2019 focusing on arts and health activity for and by children and young people. If you are unable to attend the event, you can still become a member of the network.

Artsmark CPD Twilight - Digital and Visual Arts Thursday 31 January 2019, 16:00 – 18:00, Clapgate Primary School, Leeds

This session for teachers in Artsmark schools will explore how digital technology and visual arts can be used in the teaching of core curriculum subjects. It includes the following workshops:

Unlocking Creative Technology with Darren Squires

Learn how to use your schools existing technology and IT to support the curriculum creatively, and to unlock alternative forms of learning and communication. Try out free software and apps particularly suited to developing oracy and visual communication and design

No mess + No stress: Creative activities for any classroom at any time with John Mayson

Focusing on cross curricular activities that are effective, quick and cheap, participants will discover how to use everyday materials to create 2d and 3d artwork that will support their practise and will produce brilliant display opportunities.
