

## YELLOW AWARD- I CAN PLAY A ONE OCTAVE SCALE AND ARPEGGIO, AND CAN READ THOSE NOTES

- The scale is like a ladder going up and coming down.
- An octave means that there are 8 notes to the scale.
- An arpeggio is like a chord but played one note at a time.

### G Major Scale & Arpeggio

This scale has the normal B, but watch out for the F sharp.

It's good fun to create some rhymes for the arpeggios using the letters of the notes. For example; Graceful Ballet Dancer Got Doughnut Before Groaning. It makes them easier to remember.
