

## "Swing" feel

(2)

As you are playing scales for a jazz exam you can now try your G major scale in swing feel.

Instead of playing all the notes at the same speed, play them alternately long and short feel how the scale swings along. (Ex I)  
Try this by memory.

### SWING

When you can play the swing scale, try putting in the swing slurs. Start with the first note, played long, then slur in pairs from short to long all the way up and back down (Ex 2)
