

## Orange Award - Clarinet

### Play more than two notes in one breath

#### Task 1:

Hold on a note for as long as you can.

Take a deep breath for 4 beats, taking in a bit of extra breath on each beat (Make sure you take your breath low into your tummy and don't use your chest).

Blow gently keeping the air flow steady and listen to try and get the best sound.

\*TOP TIP: Make sure your 4 beat breaths are in time with the tempo, don't rush and give yourself time to prepare\*

#### Task 2:

Play the two bars below, making sure you breathe at the end of the second bar.

If you breathe in-between, stop and go back to the start.

Do this correctly 5 times before moving on.

#### Task 3

Play the 4 bars below. Take one big breath at the start and then take a snatch breath after the second bar.

**REMEMBER:** your breath at the end of bar two needs to be deep but quick to make sure you keep in time.

#### Task 4:

Now play the whole line together. Breathing every two bars.

\*Make sure you breathe 4 beats in before you start\*
